

Phonics Programme of Study

Nursery

This programme of study was written to respond to the needs of our nursery intake and to ensure that we had a replicable programme which met the need of our youngest children.

Phase 1 with its focus on phonological awareness is **central** to our nursery phonics provision and runs throughout the year. Although we have planned for a key focus for each week phase 1, opportunities are also grasped throughout the weeks as they arise.

During Autumn 2 oral blending is used in a playful way to begin to encourage children to blend familiar cvc words eg 'Put your coat on your p-e-g.'

In the Spring term Fred is introduced as the key focal point for phase 1 oral blending and segmenting. The children become accustomed to hearing words spoken in their composite sounds and join in games such as 'Fred eye spy'

Phase 1 activities continue to be embedded throughout the term with a rotational focus on each one.

Phase 2 is introduced with the concept of 'letter of the week' The letter name and sound are introduced as we acknowledge that even our youngest children can learn the name of an animal and the sound it makes without feeling confused or overwhelmed.
