

Belleville Wix Academy

Wandsworth Primary Panathlon Event

Belleville Wix Academy is driven to expose children to new sports. Pupils from years 3, 4, 5 and 6 recently represented our school at the Wandsworth Primary Panathlon at Southfields Academy.

The event was run as part of the Project Ability in Central London which aims to allow more young children to take part in inclusive sports. The children had the chance to try out and compete in accessible variations of bocchia, kurling, volley bat and target cricket and more!

All our pupils took on this opportunity with a fantastic attitude and thoroughly enjoyed the experience. For some of our pupils, this was their first experience of representing Belleville Wix Academy in a sporting event and we hope that it will inspire them and others to engage in more sport in the future.
