

Belleville Wix Academy

Victorian Workshop May 2024

Year 1 began their Victorian day participating real Victorian lessons, with a strict school master. They learned about different types of punishment, used chalk and slate to write out sentences and recited facts about the reign of Queen Victoria.

We spent the rest of the day exploring all kinds of Victorian toys and even making our own peg dolls, just like those made by Victorian children. We became archaeologists at the end of the day, sifting through sand to discover real historical artefacts. We used our enquiry skills to figure out what each source was and where it might have come from.
